

Work Process:

How to get partnerships

- Building initial contact with the partners through email: explaining who we are, what we are doing, and why. Explain the help that we need from an organization such as them (primarily focused on marketing and spreading the word), and set up a physical meeting if one is necessary
- Following that, we will distribute marketing materials to them in the hopes that they will dissipate them through their established channels

- Moving closer to the event, we may find that we have additional needs and so we have to keep ongoing communications with all of our partners
